METRO

Gene Pullo, Vice President
Paul Pullo, President
Metro Fuel Oil Corporation

When Metro Fuel needs capital to power growth, they tap into Atlantic Bank's resources.

"We've been dealing with the same people at Atlantic for nearly a decade, with direct access to the Bank's senior managers. We didn't have that kind of relationship with our other bank."

Metro Fuel Oil Corporation provides heating oil, as well as equipment installation and service, to thousands of homes and businesses throughout New York. From financing for terminal improvements and acquisitions, to working capital for daily operations, Atlantic enables Metro to continue to deliver the level of quality and service its customers demand.

Most importantly, Atlantic shares the same philosophy as those at Metro Fuel: that trust is the most important part of a business relationship, and that there's no substitute for personal attention.

With Internet Banking and Cash Management Services, proactive financial planning and senior management accessibility, Atlantic provides the innovative, flexible solutions that keep Metro Fuel powered for success.

Discover the many ways Atlantic can help develop your business. Contact Nicos Katsoulis, Executive Vice President, at 212-714-7555.
